Management and Leadership

INTRODUCTION

What makes some organizations capable of generating and sustaining high-velocity, unparalleled, relentless improvement and innovation? In Operational Excellence you will learn what drives the success of these select companies that achieve exceptional levels of performance including time to market, quality, safety, affordability, reliability, dependability, and adaptability. This program will introduce the fundamental principles by which operational excellence occurs, give examples of key principles in practice, and provide an opportunity to test how those principles can be translated to the workplace. You will also explore processes unique to your business and how to systematize them, understand how to better allocate your resources, learn how to redesign business processes and help staff maximize the opportunities to learn by doing.

Operational excellence allows middle to top managers the space to think more about innovation that helps them achieve competitive advantage in the marketplace.

TAKEAWAYS

This program will enable you to:

- Create an organization where work is accomplished by harnessing the best approaches, and the need for new knowledge is recognized
- Solve problems as they arise and institutionalize processes that prevent the recurrence of those problems
- Multiply the impact of line and functional managers better codifying processes that ensure institutional memory
- Lead an organization where discovery is encouraged, supported, and promoted

WHO SHOULD ATTEND

- Senior leadership, whose understanding and support are vital in developing operational excellence within an organization
- Managers with responsibility for core products, services, or mission-critical processes
- Internal Consultants and Technical Experts responsible for driving operations
- Entrepreneurs in any industry, especially in new and emerging fields

The customised nature of the training made it practical and specific to our organisation. We were able to achieve deep-dive and solve real-life organisational problems that would not have been possible otherwise. Every one left with renewed vigour and a set of solutions to immediately implement.
